Applied Computer Science student at Dalhousie University (GPA 3.95) with software engineering and IT internships, looking to grow in software engineering, AI, cloud and cybersecurity.

EDUCATION

Bachelor of Applied Computer Science 2023 – May 2027 (expected)
Dalhousie University · GPA 3.95

High School Diploma, CedarBridge Academy, Bermuda · GPA 3.8 2019 – 2023

EXPERIENCE

Software Engineer Intern May 2026 – Aug 2026
RenaissanceRe, Hamilton, Bermuda

- Built an internal business application in C#, ASP.NET and SQL, from the front end to the database.
- Worked with the database team and business teams to shape the app's data and features.
- Presented completed UI work to business stakeholders at the end of each Agile sprint.

IT Help Desk Analyst Intern Jun 2024 – Jan 2026
RenaissanceRe, Hamilton, Bermuda · summer 2024, then returned for summer and winter breaks

- Resolved staff hardware, software and network issues through the IT helpdesk, from first report to fix.
- Tracked asset assignments, ran audits and kept IT asset management records accurate.
- Worked with senior IT staff to improve system performance and user experience.

Software Development Intern May 2024 – Aug 2024
Technology Leadership Forum, Hamilton, Bermuda

- Helped build a youth job board web application for Bermuda, delivering features in Agile sprints.
- Researched emerging technologies and presented findings to the team.
- Proposed ideas in team meetings to improve development processes.

Research Assistant, Human–Computer Interaction, Dalhousie University

- Worked with the team to build front-end features for a Dalhousie trivia game on a large interactive display.
- Ran usability tests on large-display designs and reported findings to the research team.
